DSP VIII Plan for the Residential & Lighting Class

Supply rates adjust every six months.

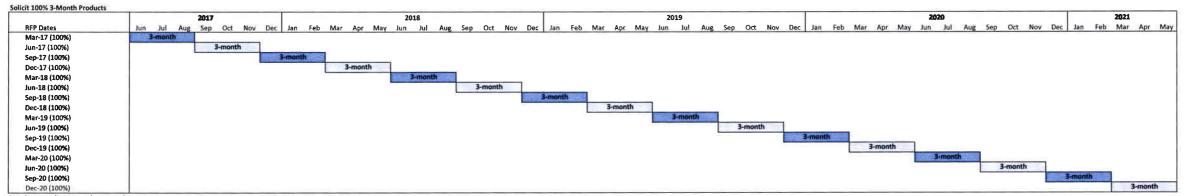

If the PaPUC at any time decides that DLC no longer will be the default service provider after the DSP VIII period, then DLC will file a petition to amend the DSP VIII plan so that no yet-to-be solicited products extend beyond the date in which DJC terminates its role as the default service provider. Existing contracts previously signed will no the altered.

DSP VIII Plan for the Small C&I Class (<25 kW)

any procession and a second se

DSP VIII Plan for the Medium C&I Class (>25 kW and <300 kW)¹

Supply rates adjust every three months.

¹The Company proposes to lower the upper threshold for the Medium C&I class from <300 kW to <200 kW on June 1, 2019.

DSP VIII Plan for the Large C&I Class (≥ 300 kW)¹

December 2020			4		4

The supplier load cap to serve Residential and Small C&I customers in a given RFP will be maintained equal to 50% of the number of tranches solicited on that RFP date, rounded up to the nearest integer number of tranches. The Company will continue the practice of removing the supplier load cap for the Medium C&I (and now for Large C&I) solicitations, which are based on short-term market price products.
